Mr. David Gisclair, Chair
Louisiana Geographic Information Systems Council
E-313 Howe Russell Bldg.
Louisiana State University
Baton Rouge, LA 70803

RE: LSPS Member and Designee Appointments

Dear Mr. Gisclair,

The Louisiana Society of Professional Surveyors would like to make the following changes in its representation on the Louisiana Geographic Information Systems Council:

Member—Greg Palmer, PLS

Mr. Palmer will be replacing Paul Kocke as the LSPS member to the council. He is currently the Designee and has a strong understanding of Geographic Information Systems (GIS) and has experience using geospatial technology in his work. He will continue to contribute to the work of the Louisiana GIS Council.

Designee—David Patterson, PLS

Mr. Patterson is a past alternate of the LSPS seat on the council. He too has an understanding of GIS concepts and has experience applying geospatial technology in his work. He looks forward to contributing to the work of the Louisiana GIS Council.

These two gentlemen will represent the Louisiana Society of Professional Surveyors to the best of their ability in advancing the goals of the Louisiana GIS Council.

Sincerely,

Charles Coyle
President,
Louisiana Society of Professional Surveyors
