

Louisiana Geographic Information Systems Council

Digital Data Committee

Meeting of May 19, 2022
Capitol View Room, 5th Floor, State Library of Louisiana
701 N 4th St, Baton Rouge, LA 70802

Attendance

Committee Members Present:

Chris Ard – City of New Orleans (NOLA)
Daryl Mack – Department of Transportation and Development (DOTD)
David Gisclair – Louisiana Senate (Senate)
Josh Manning – Louisiana Planning and Development Districts (PDD)
Kathrine Cargo – Louisiana Chapter Emergency Numbering Association (NENA)
Warren Kron – Louisiana Municipal Association (LMA)

Absent:

No members absent.

Others Present:

Hugh Ballard – Property Insurance Association of Louisiana
Daniel Bishop – Cloudpoint Geo
Phillip Breaux – LSU CARTS
Jason Carr – DOTD
Joshua Chatelain – Arcadis US, Inc.
Chris Cretini – United States Geological Survey (USGS)
Alliut Green – Property Insurance Association of Louisiana
Anthony Summers – West Baton Rouge Parish Communications District

1. Call to Order

Committee Chair Joshua Manning (PDD) called the meeting to order at 12:01 PM. A quorum was present for the meeting with Daryl Mack (DOTD) absent.

2. Approve April Meeting Minutes

Mr. Manning asked members to review the minutes from the meeting held on April 21, 2022. On a motion by Kathrine Cargo (NENA) and a second by David Gisclair (Senate), the April minutes with corrections were unanimously approved.

3. Review change to 1.6.3 Parcel schema

Mr. Manning explained a small change that was made to the parcel schema. Because there are numerous unincorporated communities in the state that could potentially be listed as the “City” of an address, the domain listing the municipality names has been removed. No action taken.

Darryl Mack (DOTD) entered the meeting at this time.

4. Discuss LSDI 1.2 Orthoimagery framework

Mr. Manning discussed the FGDC Part 2 Digital Orthoimagery document provided by Chris Cretini (USGS), and shared a table copied from the document for the committee’s review. He further recommended that the FGDC Part 2 document be the starting point for the

development of the committee's narrative for this subject.

Mr. Manning brought up that the organization of the table is a bit different than how the committee has been developing them, specifically with Domain fields. Discussion ensued on reorganizing the table to more closely match the committee's previously recommended schemas as well as better communicate the information.

Warren Kron (LMA) asked if this table applies to both digital and aerial image collections, to which Mr. Gisclair (Senate) confirmed. Mr. Mack (DOTD) suggested that the committee prioritize developing the schema for digital data as film is no longer widely used.

5. Next Meeting

Mr. Manning stated that the next meeting is scheduled for noon on Thursday, June 16, 2022, at the State Library. Ms. Cargo motioned to adjourn the meeting, seconded by Mr. Kron and the motion carried.

Action Items

- Mr. Manning will revise the spreadsheet for LSDI 1.2 Orthoimagery framework.
- Mr. Manning will research old USGS images to see what is in the attributes.
- Mr. Manning and Mr. Kron will create a table displaying the progress for each digital data topic within the LSDI.
- Mr. Kron will present the Land Use data designation document at the next LGIS Council meeting for adoption.
