As Orthoimagery Subcommittee Chair for the LouisianaMAP project I have attached my final report on the 2004 CIR DOQQ project produced by the federal government and coordinated by LDEQ. A jpeg image depicting the project deliverables and a corresponding shape file (zipped) is attached. I am requesting that this report be transmitted to LGISC members and/or alternates and that the jpeg be posted as a report on the LAGIC web site. I am requesting that this report be considered at the next LGISC Meeting under the Old Business: DOQQ Update section
