Louisiana Geographic Information Systems Council
Member for Louisiana Senate

As Orthoimagery Subcommittee Chair for the LouisianaMAP project I have attached my findings on the 2005 CIR DOQQ project slated for procurement by the USGS/NWRC with state receipt of product deliverables to be coordinated by LDEQ. A jpeg image depicting the project procurement plan and a corresponding shape file (zipped) is attached. I am requesting that this report be transmitted to LGISC members and/or alternates and that the jpeg be posted as a report on the LAGIC web site for public access. I am requesting that this report be considered at the next LGISC Meeting under the New Business: 2005 DOQQ Procurement Update.
