

September 2011 - LAGIC Report

Training: LAGIC has put together our fall and winter GIS Workshop list. We have scheduled ArcGIS I, II and III Workshops in Baton Rouge, Lafayette and New Orleans, as well as a Spatial Analyst Workshop in Baton Rouge. We will coordinate with some of our local government organizations to offer ArcGIS Workshops this spring in conjunction with their annual conferences, for example the LA APA Conference in Lake Charles this January

LAGIC completed four Broadband Grant workshops and has provided assistance to any parish or tribe that has requested it.

Outreach

LAGIC will be assisting with the documentation of Louisiana French Place Names for inclusion in the Geographic Names Information Systems.

LAGIC staff will be attending the Pictometry Conference in New Orleans next month. Pictometry has decided to offer significant discounts to educational institutions. We are going to get training in the setup and management of the Pictometry EFS database.

LAGIC is working with the Kathrine Cargo and the Louisiana Chapter of NENA on an Address Maintenance Plan. The draft plan will go out for review this fall.

GIS News

Wendi French (East Baton Rouge Parish GIS Manager) has recovered from her recent Bypass surgery and is back at work.

Philip Cretini is home with Chris and Cary and all are doing well.
